

# AUTUMN CAMPAIGN

AUGUST - DECEMBER 2025

## SAY GOODBYE TO MANUAL CAPPING STRUGGLES

SIMPLIFY YOUR TUBE HANDLING WITH THE NEW SEMI-AUTOMATED SCREW CAP SINGLE TUBE DECAPPER/RECAPPER.

The new **IntelliXcap S1** is a semi-automated decapper/recapper designed for effortless, one-handed operation. Compatible with a wide range of internally and externally threaded tubes - no gripper change needed.

The **S1** is ideal for larger master sample screw cap tubes with 11–40 mm cap diameter range.

# LIQUID HANDLING

## ERGONOMIC MOTORIZED PIPET CONTROLLER - for fast and accurate Liquid Handling

This light, ergonomic, motorized pipet controller is designed for use with glass and plastic serological pipets from 0.5 to 100 ml. Conveniently positioned switches change operating modes and speeds quickly to handle different liquid volumes and various viscosities.

Aspirating and dispensing speed is controlled through the finger triggers.

Incl.: 0.2 µm filter, universal power supply, li-ion battery set, and two-position charging stand.

## PRECISION IN EVERY DROP 💧💧

Starlabs **RepeatOne S** is perfect for routine or research applications in diagnostics, molecular biology, and environmental analysis.

- ✓ Up to 49 dispenses from the same sample
- ✓ Dispensing volume 2.0 µl - 5.0 ml
- ✓ Easy tip insertion – tip is simply inserted from below
- ✓ Increased chemical resistance through innovative plastic materials
- ✓ Conforms to EN ISO 8655 Piston-Operated Volumetric Apparatus

# CONSUMABLES

## CHOOSE YOUR STARLAB STARGUARD GLOVES Best suited to the job in hand

### COMFORT - COMFORTABLE AND STRONG

- ✓ PPE Cat. III Complex Design
- ✓ 245 mm long
- ✓ Textured and snug fitting fingers
- ✓ Made from soft nitrile

Comfort - Art.No. SG-C-XS, -S, -M, -L, -XL

### PROTECT - OUTSTANDING BREAK-THROUGH TIMES

- ✓ n-Heptane > 60 mins
- ✓ Sodium hydroxide (40 %) > 480 min
- ✓ Formaldehyde (37 %) > 240 min
- ✓ Hydrogen peroxide (30 %) > 30 min

Protect - Art.No. SG-P-XS, -S, -M, -L, -XL

**PER GLOVE**

ALL STARGUARD GLOVES ARE MANUFACTURED TO THE **HIGHEST** STANDARDS AND ARE TESTED AND CERTIFIED BY A THIRD-PARTY NOTIFIED BODY.

Ask for more information, samples and other variants.

## DID YOU KNOW THAT...

Two of Starlabs gloves have an **Acceptable Quality Level (AQL) of 0.65**.

For EN ISO 374-5 for the protection against bacteria and fungi, all gloves also protect against viruses, and they are all in compliance with EN safety standards.

For EN ISO 374-1, all gloves are classified as Type B for the requirements for chemical risks.

All gloves have been tested against a variety of chemicals to EN 16523-1:2015+A1:2018 standards.

## FLUIDX STORAGE TUBES

### Superior tracking and automation for sample audits

FluidX sample tubes make it easy to track and share data between users, labs, and locations, with strong traceability and full support for automation.

The ranges of FluidX tubes includes:

- ✓ External and internal thread tubes
- ✓ 2D-coded tubes
- ✓ Dual-coded tubes
- ✓ Tri-coded tubes
- ✓ Format - 24, 48 and 96 wells
- ✓ Working volume - 0.26 -7.6 ml

# INSTRUMENTS

## GENE EXPLORER THERMAL CYCLER Intuitive software, flexible ramp rate

- ✓ **Intelligent Operation**  
A new generation of CPU, 8-inch responsive touch screen, and user-friendly UI design makes your operation simple and faster.
- ✓ **Temperature Accuracy**  
Newly-designed block and tailor-made peltier to ensure exceptional thermal performance and optimize your PCR temperature with good accuracy.
- ✓ **Mobile App Sync**  
Innovative mobile app and WiFi capability helps to monitor your PCR status with remote control.

- ♦ **Sample capacity:** 10 - 100  $\mu$ l
- ♦ **Temp. Range:** 4°C~105°C min. resolution: 0.1°C
- ♦ **Hot-lid temp. range:** 30°C - 110°C
- ♦ **Mobile App Compatibility:** iOS / Android
- ♦ **Temp. Accuracy:**  $\leq$  0.2°C
- ♦ **Memory:** 2.000, USB flash support
- ♦ **CE-IVD** certified version is also available

## SEMI-AUTOMATED SHEET HEAT SEALER Compatible with a wide range of seals and plates

Plate and seal are placed on the holder, the "Operate" button pressed and the drawer automatically closes. The sealing process is controlled by an electric mechanism and this unique feature eliminates operator variation, giving a consistent seal every time and reducing the damage caused to microplates by over-sealing.

1. Set time and temperature
2. Place a microplate in the open drawer
3. Place a heat seal on top of the plate and press the button

[Art.No. BRO-59-2000](#)  
Standard plate carrier included.

## CORIOLIS COMPACT Portable dry air sampler

The Coriolis Compact is a dry cyclonic collector intended for microbial air monitoring. Light and compact, it can easily be transported and positioned on strategic places for indoor and outdoor sampling.

1. Collection time: From 1 min - 8 hours
2. Flow: 50 L/min
3. Size of particles collected: 500 nm - 10  $\mu$ m
4. Temp. range: +5°C - +45°C

# INSTRUMENTS

## MINI NUTATING MIXER

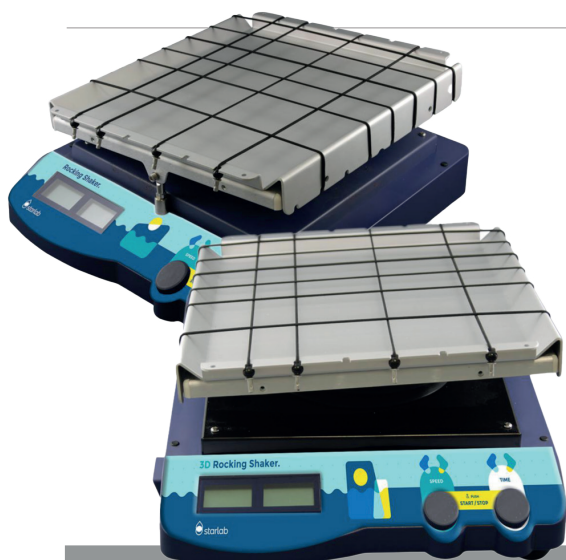

### Combine Shaking and Rocking

Combines the motions of an orbital shaker and a rocker to produce three dimensional action. The benefit of this type of motion is that it is both gentle and thorough.

- ✓ **Motion:** 3-dimensional rocking rotating
- ✓ **Speed:** 20 rpm
- ✓ **Temp. range:** 5°C - 40°C

## SHAKEN - NOT STIRRED

### Similar shakers with different movements

See-saw rocking or 3D mixing, both shakers have a fixed tilt angle and provide two shaking modes: continuous or timer. Both shakers are supplied with a platform with bungee cords.

### GET SHAKING

- ✓ Speed range - 10-70 rpm
- ✓ Movement - 3D Mixing / See Saw Rocking
- ✓ LCD display for speed and time
- ✓ 2 modes - continuous and timer
- ✓ Alternative platforms available

## CHOOSE THE 3D CELL CULTURE MODEL **3**

That works best for your research

Whether you are starting 3D cell culture, scaling up, or shifting to high-throughput screening, Corning products help you create more *in vivo*-like, predictive models - quickly and efficiently.

- **Spheroids** can be scaled up using specialized multiwell growth plates. As cell clusters, they form layers. External cells have the most contact with media, drugs, and nutrients.
- **Organoids** grow as mini-organs, maintaining cell functionality or characteristics similar to *in vivo*. They are more complex to grow but behave more naturally than 2D cultures.
- **Tissue Models** have been developed for a variety of issues to display micro anatomy, mimic complex tissues and organ function, and shed light on cell-to-cell interactions.

# SUSTAINABILITY

## WE SEE A GROWING DEMAND FOR **GREENER** SOLUTIONS FROM OUR CUSTOMERS

To meet this need we are proud to collaborate with a supplier who has a prioritized sustainability for many years, with long-term corporate planning and a strong focus on producing durable, high-quality products.

Starlab has already succeeded in saving plastic with their TipOne pipette tip system, and the journey to make pipetting more sustainable still continues.

### **REDUCE AND REUSE**

- ✦ **Material** - TipOne racks, refills and stack racks are made entirely from recyclable polypropylene and contain no paper labels, so recycling is quick and easy.
- ✦ **Green energy** - TipOne is manufactured in a factory powered entirely by wind.
- ✦ **Recycled plastic** - All clear plastic packaging on the refills (bases, lids and spacers) are manufactured from 100% recycled plastic.
- ✦ **Plastic saved** - Up to 63%, when using a sterile refill compared to using the racked equivalent.
- ✦ **Cardboard boxes** - Pack and case cartons for TipOne are made from 100 % recycled cardboard.
