

Get green with STARLAB!

STARLAB is committed to promoting sustainability in science.

Our green ideas start with our **“REDUCE, REUSE, REFILL, RECYCLE”** philosophy for the Research and Development of greener products.

STARLAB's aim is to manufacture and supply smart products that save energy (both during production and when in use at the lab), minimize raw materials, reduce packaging materials and provide sustainable disposal options for the customer.

One System, One Solution!

The TipOne system is reusable, refillable and recyclable and every part of the system is interchangeable with the rest.

The **clever** refill!

The **perfect** rack!

Colour coded wafers for easy volume identification!

A 2D matrix code on each wafer allows full traceability of item and lot number.

If you want to be a part of this, order your Starlab tips today!

DNA/RNA-Exitus Plus™

Get rid of DNA and RNA contamination in your life science lab enabling trueness and reliability for your (COVID-19/PCR) analysis!

DNA-ExitusPlus™ IF - DNA & RNA decontamination, indicator free version.

DNA-ExitusPlus™ - DNA & RNA decontamination, with surface trace indicator.

- Non-toxic nor even harmful
- All components are biologically degradable

UV Pipette Cleaner Carousel

nUVaClean™ is the first and only pipette rack that not only organizes and protects six pipettes, but also destroys greater than 99% of unwanted contamination.

Art.No. BMS-P5590-E

- Destroys >99% Virus, Dna/RNA, Bacteria, Mycoplasma
- UV-C lamp and reflector system
- Eliminates cross-contamination
- 360° UV exposure
- Fits virtually any pipette

Special price! 2 995kr

BLIRT manufacture high quality recombinant enzymes for the Life Science industry.

Reagents & Solvents for DNA/RNA synthesis

BURDICK & JACKSON™ BIOSYN™

Solvents and reagents specifically processed and purified to exacting specifications, ensuring outstanding synthesis efficiency.

- Low water content solvents
- High purity
- Consistent quality
- Packaging facilitate direct connection to popular synthesizers

Burdick & Jackson™ BioSyn™

Jena Bioscience utilizes more than 25 years of academic know-how to develop innovative reagents for clients from both research and industry

96 Deep Well Microplate for KingFisher™ Systems

Designed for a perfect fit! the Porvair Sciences 96 deep well plate are specifically made to be fully compatible with the Thermo Scientific™ KingFisher™ range of purification systems.

porvair
sciences

Each v-shaped bottom well supports the specialised magnetic tips of all **KingFisher™** Instruments with a perfect fit and maximises liquid sample collection, mixing and uptake during the purification process. From sample collection, mixing to purification, the Porvair Sciences 96 deep well plate is designed to ensure reproducible purification of cells, proteins and nucleic acids from a wide range of samples.

- 2.2 ml, 96 deep well plate
- Working volume 50 µl - 1000 µl
- V-bottom for maximum liquid uptake
- Low leachables and extractables
- High chemical and temperature resistance
- Free from DNase, RNase, human DNA

Special price! 1 395kr
(pack of 50 plates, ord.price 1 978kr)

Serological pipettes

SPL

Corning® - Ultra Pipet Controller

CORNING

- When fully charged, the batteries enable up to 8 hours of continuous use.
- Comes with a universal power supply, three 0.2 µm filters, 3 colored nose pieces and a wall hanger.
- Designed for use with glass and plastic serological pipets from 0.5 to 100ml.

Special price! 1 189kr

Art.No. 4099

Corning Cell Counter

It is fast, accurate, and affordable!

CORNING

Art.No. 6749

Roughly the size of a coffee mug!

- Size (90x90x100mm LxWxH)
- Counts superfast (3 sec) online in the cloud
- Uses many different types of reusable or disposable counting slides
- Produces data that you can access online
- Bright field counting with or without trypan blue
- Connect to your PC or tablet and count

Special price! 24 925kr

Corning Media products

CORNING

Quality release testing of Corning liquid classical media products assures low levels of endotoxin, mycoplasma, and an absence of contamination.

DataPaq™ Mirage 2D barcode rack scanner

Cryoprotection and DPD software.

Using the latest technologies DP5 can be run from a laptop, desktop, phone, tablet or any other network connected device.

Art.No. DP5-M-STD-80

- The most compact camera based SBS 2D rack scanner available
- Low profile allows use on robotic integrations for liquid handling systems
- Innovative and unique scanning technology (patent pending)
- Scans all current, commonly used, SBS format racks
- Scans acoustic tube racks in seconds (i.e. AcoustiX)

Special price! 41 000kr

Ziath

Cryo Tubes - round bottom or self-standing

- Sterilized by beta-radiation
- Cert. free of DNA, DNase, Pyrogen, ATP, human DNA, and PCR Inhibitor
- Lid with integrated sealing function, no additional silicone O-ring
- Internal conical bottom for complete emptying

Art.No.	Description	Price!

Arium® Mini Ultrapure Water Systems

Arium® Mini Plus for the production of **ASTM Type 1 Ultrapure Water** and **Type 3 Pure Water**

Ultrapure water is the basis for successful analyses!

Yet analytical methods are becoming more and more sensitive and thus more susceptible to interference.

Consistently high water quality is decisive in ensuring the reproducibility of your results and in preventing time-consuming repeat analyses.

You can always rely on the Arium® Mini series of laboratory water systems to consistently deliver the highest water quality.

Reliable - Innovative - Intuitive - Compact

Art.No.	Description	Price!
H2O-MA-T	Arium Mini Plus	29 725kr
H2O-MA-UV-T	Arium Mini Plus incl. UV lamp	34 349kr

Art.No. P000673-MLYS0-A.0

Ideal for daily lab workflow!

Especially designed for low throughput laboratory workflows, the Minilys personal tissue homogenizer homogenizes three samples simultaneously in 0.5mL or 2mL tubes and one sample in 7 ml tubes.

Speed range:

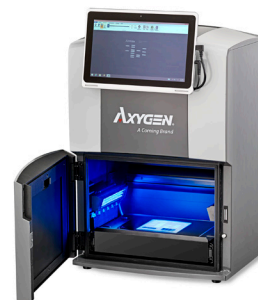

3000, 4000 & 5000 rpm

Capacity:

- from 1 to 3 x 2ml, 0.5ml or 1.5ml tubes
- 1 x 7ml tube

Special price! 17 395kr

Art.No. GDBL-1000

Axygen® Gel Documentation systems easily capture publication quality, 16 bit TIFF images.

- Auto exposure—you never have to manually manipulate the camera
- Ready-to-use—just connect the computer and load the software
- Long-life dual wavelength transilluminators
- Exceptionally high resolution (5.4 MP) camera
- The cabinet is compact with an ultra-violet (UV) cut-off switch to prevent exposure to UV light if the cabinet door is opened while the UV light is on.

Special price! 54 700kr

2nd Generation Ultravap® Levante - Sample evaporator

The classic, fully robot-ready sample evaporator for tube racks and microplates!

Art.No. 500226

The **Ultravap® Levante** is designed to consistently and reproducibly evaporate solvents from samples.

The **Ultravap® Levante** is designed to securely fit all microplate formats and tube racks for glass vials up to 45 mm.

Hotter Than Ever

- Increase rate of sample dry down with new evaporation temperature of 80°C
- Reduce drying times by up to 50%

Enhanced Programming

- Greater control with up to 5 stored evaporation programmes
- New PAUSE mode for improved method development

Illuminating Design

- Classic blue, bench-top friendly instrument with integrated LED lights for greater sample visibility
- Fits tube racks up to 45 mm in height
- Choice of 12-, 24-, 48-, 96- and 384-well needle head

Special price! 112 000kr
(without needle head)

Bottle-top dispenser

VITLAB® genius² dispenser with variable volume and recirculation system.

Included:

- **VITLAB® genius²** (GL45)
- Thread adapters (PP)
- Telescopic filling tube
- Recirculation tube
- Mounting tool
- Quality certificate

Completely autoclavable at 121 °C (2 bar) according to DIN EN 285.

Flexible solution for capping and de-capping 96 format screw caps!

IntelliXcap™ M8 - Designed with the user in mind!

Art.No. BRO-46-9012

Brooks
LIFE SCIENCES

fluidX™
From Brooks LIFE SCIENCES

- Lightweight, hand-held, semi-automatic single column-based capper and de-capper
- Compatible with 96-SBS rack format screw capped tubes
- Caps a single column in under 4 seconds; caps/de-caps a complete rack of 96 tubes in less than 90 seconds
- All caps are tightened to the same torque to create a secure seal
- Battery operation allows capping/de-capping for more than 40 complete racks
- Docking station for instrument placement/storage and charging also provides contamination-free handling of caps
- Single 'action' button operation to de-cap, re-cap and eject caps

Price! 25 900kr
