

SPRING CAMPAIGN

FEBRUARY - JUNE 2025

THE "ECOLUTION" OF TIPONE®

Buy by the case. Look for Starlab article numbers ending with a -C.

It is a greener, more cost-effective choice that reduces transport emissions and packaging waste.

[TipOne](#) is available in bulk, refill, and rack, with or without filter, sterile or non-sterile.

DID YOU KNOW THAT....

- ☘ All components of the TipOne system are recyclable, and manufactured in a factory powered entirely by wind.
- ☘ TipOne is designed with the least component parts possible, with every part of the system interchangeable with the rest.
- ☘ [Starlab's gloves](#) are manufactured in a factory powered by solar panels.

THE LOCAL ALTERNATIVE IN THE NORDICS FOR EVERYONE WHO WORKS IN LABORATORIES – BIG ENOUGH TO BE ABLE, SMALL ENOUGH TO CARE

GLASSWARE

LABORATORY GLASS FOR ALL REQUIREMENTS

Saveen & Werner is renowned for its extensive range of laboratory glassware and has been selling and producing high-quality glassware since the early 1900's.

We offer a wide selection of laboratory glassware, including both standard and custom-made products manufactured to your specifications. We collaborate with leading suppliers such as Lenz, DWK, and Glassco.

STANDARD GLASS

We stock a comprehensive range of laboratory essentials, including:

- ✓ Beakers and bottles
- ✓ Erlenmeyer flasks
- ✓ Measuring cylinders
- ✓ Volumetric flasks
- ✓ Test tubes
- ✓ Various glass pipettes

We also maintain an extensive inventory of standard glass components for setups used in analytical chemistry and chemical synthesis, such as:

- ✓ Round-bottom flasks
- ✓ Reaction vessels
- ✓ Condensers
- ✓ Splash heads
- ✓ Various adapters, connectors, screw caps, septa etc.

[Browse our Glassware catalogue](#)

CUSTOM-MADE GLASS

If you have specific requirements or unique designs for your glassware, we work closely with expert glassblowers to create custom-made products based on your drawings.

GLASS REPAIRS

Do you have glassware in need of repair?
We can assist with that too.

Contact us to discuss your needs for custom glassware or glass repairs.

TIRED OF SCREWING CAPS ON AND OFF YOUR TUBES YOURSELF?

THE INTERCHANGEABLE CARTRIDGE SYSTEM IS AN EASY TO USE SOLUTION FOR USERS WITH MULTIPLE TUBE TYPES FROM VARIOUS MANUFACTURERS.

Try with the semi-automated handheld screw cap-decapper - a flexible and affordable solution for capping and de-capping 96 format screw caps with easily interchangeable cartridges to switch between **different tube/cap types**.

- ✓ Single 'action' button operation to de-cap, re-cap and eject caps
- ✓ Option to eject caps onto cap carrier using second 'eject' button
- ✓ Designed to be used by both left and right-handed users

STERI VENT CONTAINERS - HIGH AND LOW MODEL

The Steri Vent is made of highly purified and totally transparent polypropylene, which results in a firm and crystal clear plant tissue culture container.

The labyrinth closure ensures a hermetically closed container for bacteria, yeast, and fungi. Although hermetically closed, the Steri Vent allows continuous ventilation, and a continuous exchange of fresh air from the outside. The result of this air replacement is a severely reduced rate of condensation within the Steri Vent.

The Steri Vent container is available in two sizes:

1. [S1686](#) = High Model, L107 x B94 x H96 mm
Comes in 480, 960, 1920, 2880 and 5760 pcs.
2. [S1682](#) = Low model, L107 x B94 x H65 mm
Comes in 1440 and 2880 pcs.

CONSUMABLES

CONSUMABLES FOR ALL YOUR NEEDS

Discover our range of sterile and non-sterile consumables for applications such as cell culture, storage, filtration, and analysis.

We offer products from trusted brands like for example Starlab, Corning, Azenta, and SPL, including:

- ✓ Plates and glassware
- ✓ Pipette tips and sample tubes
- ✓ Gloves, syringe filters and seals

Need something specific for your lab?
Give us a call.

PLASTIC/PLASTIC SEROLOGICAL PIPETTES – EASY-TO-OPEN DESIGN - EASY WASTE SORTING

SPL Serological pipettes are classified by sample volume. Ascending and descending scales facilitate reading of both dispensing and remaining volume.

- ✓ Individually packed
- ✓ Non pyrogenic and non cytotoxic
- ✓ DNase/RNase free and human DNA free

CONSUMABLES

WORKING WITH RAININ LIGHT TOUCH PIPETS?

The new LTS-compatible tips are simple to attach and remove, requiring less force to reduce hand strain and lower the risk of repetitive stress injuries.

- ✓ **Streamlined Comfort:** Reduce sealing and ejection force, ensuring smooth pipetting with less hand and wrist strain.
- ✓ **Packaging:** Choose between rack, filtered, reload stacks, and eco-friendly Axygen HybridRack Pipet Tips.
- ✓ **Quality:** ISO 13485 and ISO 14001 standards, tips use USP Class VI resin. Sterile products ensure an SAL of 10⁻³.
- ✓ **Safety:** Tips are RNase-/DNase-free, Human gDNA-free, PCR inhibition-free, nonpyrogenic, and autoclavable at 121°C for 15 min.

WE ARE DISTRIBUTORS OF HONEYWELL FLUKA™ PREMIUM GRADE INORGANIC REAGENTS

Honeywell

Honeywell Fluka™ offers inorganic reagents, trusted by analytical chemistry labs and industries. The range includes renowned product lines like [Hydranal™](#) for Karl Fischer titration and [TraceSELECT™](#) for trace analysis. Manufactured at ISO-certified facility in Germany, Honeywell ensures consistent quality through regular audits and ongoing investments in advanced technology.

HIGH PURITY CHROMASOLV™ SOLVENTS

The [Chromasolv™](#) family of solvents are used in a variety of analytical applications such as preparative separations utilizing LC-MS, HPLC, API purity quantitation and pesticide analysis at trace levels.

High purity LCMS and UHPLC-MS solvents for the most demanding applications.

BIOPROCESS

IN COLLABORATION WITH **SANISURE**, WE ASSIST IN DESIGNING AND FINDING SOLUTIONS FROM DRAWING TO PROTOTYPE TO PRODUCTION, WHILE ALSO DEVELOPING AND OPTIMIZING YOUR PROCESS.

PHARMATAINER BOTTLES

Sanisure PharmaTainer Bottle Solutions range from 10ml to 20L single-use in PET or PC.

Sanisure PharmaTainer Bottle Solutions can be used for liquid transfer, storage, and transporting vaccines, biopharmaceuticals, culture media, or other biotech materials.

- ✓ Manufactured with 100% virgin ACDF-approved medical-grade resins.
- ✓ Produced in an ISO Class 5 (Class 100) environment
- ✓ Supported by existing DMF files, ensuring compliance and traceability.
- ✓ Lot-to-Lot consistency

PHARMATAINER ASSEMBLIES WITH CAP2V8

Engineered, single-use solutions reducing operational cost and improving production efficiency.

- ✓ Molded and unitized construction (no adhesives)
- ✓ Certified sterile
- ✓ Cost-effective aseptic transfer and sampling device
- ✓ One continuous flow path
- ✓ Lot-traceable
- ✓ Meets the requirements of USP Class VI
